

moving means for moving the indicating member to a predetermined position in response to the receipt of a paging message to indicate information concerning the received paging message.

*Cont'd
DI*

35. A device for displaying a paging message according to claim 34; further comprising means responsive to the content of the paging message for controlling the moving means to move the indicating member to a predetermined position depending upon the content of the paging message.

ADDITIONAL FEES:

Authorization is hereby given to charge our Deposit Account No. 01-0268 the amount of \$554.00 to cover the additional fee for three (3) additional independent claims and fourteen (14) additional claims in excess of those already paid for. Should it be determined that a further fee is due, authorization is hereby given to charge any such fee to our Deposit Account No. 01-0268.

REMARKS

In the previously filed response to the Office Action mailed July 30, 1998, new independent claim 21 was

added which corresponds exactly to the Examiner's suggested claim in the July 30 Office Action.

By this supplemental response, new claims 22-35 have been added to correct errors in claiming less than applicant had a right to claim in the original patent (U.S. Patent No. 5,297,118). Pursuant to 37 C.F.R. §1.75(b)(1), as amended effective December 1, 1997, upon indication by the Examiner that the application is in condition for allowance, applicant will submit a supplemental declaration stating the errors corresponding to new claims 22-35 which are not covered by the earlier declarations.

In view of the foregoing, applicant respectfully submits that the application is now in condition for allowance. Accordingly, applicant respectfully requests that an interference be declared with U.S. Patent Nos. 5,329,501 and 5,479,378 as proposed by the Examiner in the July 30, 1998 Office Action and during the telephone discussion with the Examiner on August 24, 1998.

Respectfully submitted,
